Disaster! Are you protected?

Many disasters are unavoidable such as earthquakes, floods, tornadoes, hurricanes, fires, malfeasance and more. Being prepared to resolve them quickly is key. Data backup and availability is an absolute requirement to keep your business running in the event of a disaster.

Thoroughbred Cloud Backup Services offer remote backups for all Thoroughbred-based Software Systems and Databases. Backups are done off-hours and can be tailored to your requirements including multiple off-site storage locations.

Thoroughbred Software has several Levels of Backup Services available.

Don't trust tape backup systems that may contain no backup data at all.

Contact us for backup protection, it could save your business.

Thoroughbred keeps your business Running Better!
