OPEN VMS 8.7.1

- 1) Login to VMS as **SYSTEM** manager

Find the disk address of your cd-rom drive.

Insert the cd. We'll refer to it as CDROM:

- 2) \$ MOUNT/SYSTEM/NOASSIST CDROM: TBRED851
- 3) \$ SET DEFAULT CDROM:[INSTALLATION.OPENVMS_INSTALL]
- 4) \$ PRINT OPENVMS_INSTALL.LIS
(detailed instructions)
- 5) \$ @UMASK0
- 6) \$ @INSTALL86

You will be prompted for a serial number,
e.g. 401099999-VC

Thoroughbred Basic will be started. If you want to activate, call 800-524-0430 and ask for the activation desk, or go to www.tbred.com. You will need your serial number and the 9-digit installation code that is on your screen. Enter the 8 (uppercase) characters returned to you for the activation key.

When you get to the >READY prompt, type **RUN "INSTALL"** and select **Enter** then follow the directions. Enter **PF4** at the end of the installation.

Or

If you decide to install the 4GL tools later: set def tbred_basic; @TB IPLSETUP ; RUN "INSTALL"

For installation problems call 800-524-0430 and ask for Support, or e-mail support@tbred.com
